BADGE[®]

THE GALAPAGOS

Beside the fun shapes and the googly eyes there's something very special about this toy: we are reinventing the wheel by using a non-conventional triangular shape. This design details gives these toys a movement that is surprising, playful, and still effective.

From the unique swimming iguanas to crabs, to crawling sea lions and of course, the iconic galapagos tortoise, we have chosen to represent some of the most famous inhabitants of this archipelago.

New Domino^{3D}!

3 times more fun.

This special domino set takes the classic game to another level, quite literally. These pieces allow you to play in three dimensions and use them to build interesting structures.

The fun is endless, not only is possible to play the good old domino game but we are also introducing a brand new 3D version for the whole family.

Bricks on wheels

Blocks are usually associated with architecture and construction, with stability, but with this new set we decided to take them on the road.

Passing a shoelace through the holes to join the blocks, children will get interesting compositions of shapes and colors and of course they can also play with the blocks separately making this a perfect option to ignite creativity and dexterity.

8 blocks, 3 laces

Box: 22 x 12 x 7 cm

With this new set we want to give children the possibility to create different vehicles, thus exploring the blocks as a dynamic element rather than a static one.

Hempions
by TOBE

Because of our commitment with the environment we decided to make this wonderful collection, two soft toys (The Fox and Sloth) and two teethingers (Bee and flower). The Hempions are made with love and are eco-friendly. There's an innovative feeling to them, their texture and their quality turn them into a pleasure to play with.
